

Minimize your waste of time, space and money

- Volume Reduction of 40:1
- Blocks of up to 300 kg per m³
- Compacts up to 70 kg. per hour
- Improved logistics and space savings
- Generate revenue while reducing costs

The EPS 2000 Polystyrene Compactor compacts and converts EPS expanded polystyrene into revenue. The EPS 2000 compacts up to 70 kg. of EPS6 per hour.

Many businesses such as electronics manufacturers, distributors, fishing and food processing industries use polystyrene for packaging goods and material. Mil-tek EPS Compactors are the ideal solutions for compacting EPS6, the most commonly used form of polystyrene.

The EPS2000 Polystyrene Compactor breaks down and reforms EPS6 into a briquette which can be sold and recycled into plastic components such as electronic goods, toys and DVD cases.

Perfect for

Recyclers
Food Handlers
Food Processors
Distribution Centres
Electronics
Manufacturers

Specifications

Capacity	<70 kg / hour
Block Dimensions: H x W (mm)	270 x 270
Door opening: H x W x D (mm)	510 x 860 x 960
Machine size H x W x D (mm)	2400 x 4010 x 1165
Weight	965 kg
Volume reduction	40:1
Material	EPS6 (Expanded Polystyrene)
Density	<300 g/litre (<300 kg/m ³)
Amp.	16 A
Power	3 phase - 400 V
Motor	2 x 3 kW
Approvals	CE
