Minimize your waste of time, space and money

- Convenient operating height
- Total height below 1.8m
- High compaction pressure
- Electric: almost silent running 57 dB (A)
- Plug'n'Press: modern control system
- Constant Pressure: Locks pressing plate in place
- Safe and easy bale ejection system

The E219 Small Electric Baler for cardboard and plastic. A height of just 1.8m makes it suitable for even the smallest businesses, while the large door opening allows for easy loading at an optimal height.

The Electric E219 is a small-size electric baler with a low height of just 1.8m. Featuring a large door opening almost 1 meter wide, the E219 allows for the loading of ample amounts of material at an optimal working height.

The E219 features the same modern control system as all E-Series machines allowing you to activate the cycle and lock the pressing plate in place. The Stay 'n' Hold feature applies constant pressure without any further use of power.
