

ELECTRIC E319

Minimize your waste of time, space and money

- High compaction pressure
- Electric: almost silent running 57 dB (A)
- Electric: no hydraulic oil
- Plug'n'Press: modern control system
- Constant Pressure: Locks pressing plate in place
- Safe and easy built-in bale ejection

The E319 Cardboard & Plastic Electric Baler is a low height, heavy duty electric baler that is ideal for businesses with a steady stream of cardboard and plastic waste and packaging.

The Electric E319 is a quiet-running electro-mechanical baler. Featuring a spindle-driven pressing plate, the E319 quietly compresses material with up to 15 tonnes of pressing force.

The E319 has a modern control system to start the machine and activate the pressing cycle and the pressing plate has a constant pressure feature, which locks the pressing plate in place to further compact material, without any further electrical use.

HEALTH AND SAFETY

Minimize your risk

Perfect for

Warehouses
Wholesalers
Manufacturers
Distribution Centres
Retail Stores
Supermarkets
